

Baccalaureate Origins Peer Analysis 2000
Centre College

The ratio of doctorate origins to baccalaureate completions was calculated by dividing the sum for a particular 10-year period by the sum of baccalaureate completions for the institution offset by five years. For example, the origins for AY1991 – AY2000 were divided by the sum of completions for the period AY1986 – AY1995. The rank of this ratio is referred to as a Weighted rank in the report.
